Questions will follow the presentations.

Representative Janel Brandtjen, (R) Menomonee Falls, of the 22nd District of Wisconsin has been working to prevent the massive fraud and irregularities of the 2020 Presidential Election from being repeated in 2022 and future elections. She appears (along with Judge Gableman, Kellyanne Conway and others) in the new documentary movie: “Rigged, The Zuckerberg-funded Plot to Defeat Donald Trump,” concerning how the vote was rigged in 2020 in Wisconsin, Georgia, and Arizona. She will talk about the movie and what we can do to insure that 2020 voting irregularities do not get repeated.

All are invited!
