Speaker: Nate Nelson

“Defending our Second Amendment Rights in This Election Year”

One party in this country is calling for much stricter gun control laws, which many say violate our Second Amendment, but what can we do as citizens to defend and keep the rights that our nation’s constitution guarantees? Nate Nelson of Oshkosh has some great ideas on that! He has worked for the National Rifle Association in the past, and will talk about what we can do to keep our nation’s freedoms, and make our communities Second Amendment strongholds. Nate currently represents the American Majority (see www.americanmajority.com), and helps train conservatives to be able to run for office. He is also a certified Concealed Carry instructor.
